Cures Woman's Weaknesses.

We refer to that boon to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription.

Dr. John Fyfe one of the Editorial Staff of THE ECLECTIC MEDICAL REVIEW says of Unicorn root (*Helonias Dioica*) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invariably acts as a uterine invigorator * * * makes for normal activity of the entire reproductive system." He continues "in Helonias we have a medicament which more fully answers the above purposes *than any other drug with which I am acquainted.* In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent." Dr. Fyfe further says: "The following are among the leading indications for Helonias (Unicorn root). Pain or aching in the back, with leucorrhœa; atonic (weak) condition of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women; constant sensation of heat in the region of the kidneys; menorrhagia (flooding), due to a weakened condition of the reproductive system; amenorrhœa, suppressed or absent monthly periods, arising from or accompanying an abnormal condition of the digestive organs and Anæmic (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unicorn root, or Helonias, and the medical properties of which it most faithfully represents.

Of Golden Seal root, another prominent ingredient of "Favorite Prescription," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says:

"It is an important remedy in disorders of the womb. In all catarrhal conditions * * * and general enfeeblement, it is useful."

Prof. John M. Scudder, M. D., late of Cincinnati, says of Golden Seal root:

"In relation to its general effects on the system, *there is no medicine in use about which there is such general unanimity of opinion.* It is *universally* regarded as the tonic useful in all debilitated states."

Prof. R. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal:

"Valuable in uterine hemorrhage, menorrhagia (flooding) and congestive dysmenorrhœa (painful menstruation)."

Dr. Pierce's Favorite Prescription faithfully represents all the above named ingredients and cures the diseases for which they are recommended.

Weak Kidneys

Weak Kidneys, surely point to weak kidney Nerves. The Kidneys, like the Heart, and the Stomach, find their weakness, not in the organ itself, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the Kidneys alone, is futile. It is a waste of time, and of money as well.

If your back aches or is weak, if the urine scalds, or is dark and strong, if you have symptoms of Brights or other distressing or dangerous kidney disease, try Dr. Shoop's Restorative a month—Tablets or Liquid—and see what it can and will do for you. Druggist recommend and sell

EXCITEMENT IN CHICAGO.

Unfavorable developments in the financial world, accompanied by heavy calling of loans in Wall street and rumors of pending failures, threw the Chicago board of trade into a panicky state yesterday and frenzied selling by frightened holders caused a severe slump in prices for wheat and corn. It was reported that local banks refused to accommodate leading Minneapolis grain men with loans on wheat which that have "hedged" in this market, and the latter were placed under the necessity of liquidating their holdings in the pit.

The Chicago banks, it is said, have in the neighborhood of $20,000,000 loaned on wheat at the present time and do not wish to carry any more of such paper, owing to the tightness of the money market and the necessity of fortifying their position against possible contingencies.

While the wheat pit at the opening was boiling over under the stress of excited selling from all sides, word went out that the Patten crowd was attempting to unload its big line. Later, Mr. Patten declared that he had not sold a bushel. He also said that he was making no special effort to support the market, although buying by the firm in which he is interested gave some brokers that impression.

When traders heard of the bank failure at Butte, Mont., confidence was further shaken and fresh outbursts of selling drove December wheat down to $1.02 and May to $1.07⅞. After this the market recovered slightly on buying by shorts to take profits, and the close was at $1.02½ to $1.02⅝ for December and $1.08 for *May*.

WIRELESS TELEGRAPHY.

As was stated in the Gazette, inauguration of a regular transatlantic wireless service was accomplished by William Marconi and his assistants yesterday. Mr. Marconi stated last night that more than 5,000 words had been transmitted between the station at Fort Morton, six miles from Glac Bay, N. S., and the Irish station.

The Cape Breton station is situated on a bleak projection of the Cape Breton coast, immediately overlooking the ocean.

The station is the property of the Canadian Marconi Company and is estimated by Mr. Vyvian to have cost $100,000, independent for experimenting incidental to the first attempts to make practical use of a new invention. There are 24 pine masts 180 feet high, arranged in a circle of 3,000 feet diameter. The masts are wired and connected with the four towers forming the center of the circle. The towers are wood, 215 feet high, and surmounted by masts 50 feet in height.

Among the messages which were transmitted yesterday was one from Sir Hiram Maxim and a telegram from the London Daily Mail to President Roosevelt.

The principal advance in long-distance sending which Marconi has made in two years' work is described as the perfecting of a receiver many times more sensitive than the original instrument. Details have been kept secret.

Taken at the "sneeze stage" Preventics will prevent Pneumonia, Bronchitis, La Grippe, etc. Hence the name, Preventics. Good for feverish children. 48 Preventics 25 cents. Trial Boxes 5 cts. Sold by E. S. Leadbeater & Sons.

FALLING OFF OF CANDIDATES.

The allurements of commercial life and fear of the ministerial dead lines are assigned as the reasons for the alarming decrease in the number of young men entering the ministry by the Congregational National Council, which held its final meeting at Cleveland, Ohio, yesterday. The report of Prof. C. S. Nash, of California, on "Ministerial Training and Equipment," aroused the discussion. A score of delegates engaged in the argument. Increased pay for ministers was the only solution suggested.

"The greed for the dollar is dragging our young men into commercial life to the detriment of the ministry," said Dr. C. L. Morgan, of Illinois. "Congregations seem to think that a minister should labor for nothing. We cannot blame young men if they do not venture their own lives and their families in such a precarious career as the ministry affords."

Dr. William Park, of Chicago, said that the fear of losing their pastorates, after they reach middle age, deterred many who would otherwise enter the ministry.

"It is the cry everywhere for young men. It is this ministerial dead line that holds men back."

His Dear Old Mother.

"My dear old mother, who is now eighty three years old, thrives on Electric Bitters," writes W. B. Brunson, of Dublin, Ga. "She has taken them for about two years and enjoys an excellent appetite, feels strong and sleeps well." That's the way Electric Bitters affect the aged, and the same happy results follow in all cases of female weakness and general debility. Weak, puny children too, are greatly strengthened by them. Guaranteed also for stomach, liver and kidney troubles, by all druggists. 50c.

Hard Times in Kansas.

The old days of grasshoppers and drought are almost forgotten in prosperous Kansas of today; although a citizen of Codell, Earl Shamburg, has not yet forgotten a hard time he encountered. He says: "I was worn out and discouraged by coughing night and day, and could find no relief till I tried Dr. King's New Discovery. It took less than one bottle to completely cure me." The safest and most reliable cough and cold remedy and lung and throat healer ever discovered. Guaranteed by all drug stores. 50c and $1.00. Trial bottle free.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

FRIDAY EVENING, OCT. 18, 1907.

MR. ANDREW CARNEGIE, in an address at the Philosophical Institution in Edinburg yesterday, appeared as the champion of the colored race. He asserted that there had been a gradual decrease of illiteracy among them and told of participation in church affairs. Mr. Carnegie contended that the negro was a saving man, and he repudiated the idea that the negro is lazy. The negro, he said, had become of immense economic value, and is indispensable. Mr. Carnegie admitted, however, that the negro problem is still unsolved. Lord Rosebery, who spoke on the same question, said he doubted the wisdom of enfranchising the negroes. Ninety per cent. of them he believed, were illiterate when they were enfranchised, and on Mr. Carnegie's showing 47 per cent. of them were still so. Lord Rosebery said that things were sometimes done under high and generous impulses which where afterward regretted. He was inclined to think there were some persons in America who regretted that the suffrage had been given to the negroes. Mr. Carnegie seems to be ignorant of the true condition of the large percentage of the negro race in the United States. While a small minority have taken advantage of their enfranchisement and become useful men and women, the bulk have in no wise improved, but rather deteriorated.

WITH THE many other issues facing housekeepers at the advent of cold weather is the announcement that the price of bread will advance from five cents a loaf in the near future. It is also likely that the cost of all other commodities in which wheat is a factor will go up in price, or else the articles themselves will be reduced in size. The bakers in Washington claim that at the present cost of flour it is impossible to bake bread in loaves the size prescribed by law, sell them at five cents a loaf, and make a profit. The managers of many of the smaller bakeries in that city declare that unless an advance in the price of bread comes within the next few weeks, they will be compelled to shut down. The scarcity of wheat and its high price on the market is said to be the causes of the contemplated advances in the prices of the staff of life. While there has at yet been no noticeable diminution in the size of loaves of bread it is a fact that cakes and some other productions of bakeshops are by no means as large at present as those offered for sale a year or more ago.

THE announcement of the development of wireless telegraphy to such an extent as to render it possible to send messages through the air across the Atlantic ocean was read with pleasure yesterday and today throughout the civilized world. This generation is living in a wonderful age. The grandfathers of many now on earth found the world at their birth about in the same condition as in the days of Socrates. Gunpowder had been discovered, which had completely changed the mode of fighting, but there was but little improvement in the modes of traveling and conducting business at the advent of the nineteenth century over conditions existing in the days of the Roman empire. Steam and electricity have revolutionized the world. Ships now cross the ocean in five days, when formerly a month was required for such a voyage, while on land, instead of the clumsy stage coaches, people are whirled over the surface at the rate of sixty miles an hour, and by the telephone a merchant, without rising from his chair, can talk with cities hundreds of miles away.

THERE IS apparent anxiety in financial circles in the United States and Europe. The bank failure in Hamburg yesterday and another today, together with two in this country—one in Butte, Montana, and one in Houston, Texas,—as well as the excitement in the stock market in New York yesterday and the flurry in the wheat pit in Chicago have caused natural apprehension. According to a dispatch today from Queenstown, Ireland, Mr. Andrew Carnegie predicts a financial crisis in America. He believes it has already begun, in fact. It will extend to England, too, he says. Mr. Carnegie however, regards the coming flurry with composure, because he thinks its ultimate result will be good by restoring actual values and putting a stop to the general craze for speculation. TALK IS NOT CHEAP, according to a statistician, who asserts that talk costs just about $15 a minute to run the Episcopal Convention now in session in Richmond. The statistician, therefore, concludes that some deputies have expended a small fortune at the expense of the church. A thirty-minute talk of a bishop at a missionary meeting it is said by the same authority cost just $450. A resolution that takes five minutes to read cost $75. Suggestions have cost the convention $2,500, and humorous speeches have cost $250 each. The charge of an unimportant word costs the convention $600, and the inattention of members demanding re-reading of resolutions, it is claimed, costs $5,000.

From Washington

[Correspondence of the Alexandria Gazette.]

Washington, Oct. 18.

It is understood that Attorney General Bonaparte hopes to have ready for the President by November 1 his opinion as to whether the Harriman railway system and the Southern Pacific Railway are being operated in violation of the Sherman anti-trust law. There is a hint of prosecution. The fact was not concealed today at the Department of Justice that he has gone very carefully over the voluminous papers sent him in July by the the Interstate Commerce Commission, as the result of its eight months' rigid investigation of the Harriman methods, and that he is now supplementing that information along material lines. Yesterday's conference with C. A. Severance was on this subject. Bonaparte wished fuller information on certain phases of the hearings which Severance conducted jointly with F. B. Kellogg for the commission. The fact that Severance and Kellogg privately recommended to the commission that Harriman should be prosecuted, gives rise to the belief that Bonaparte's opinion to the President will be along sensational lines. It was disclosed today that F. B. Kellogg's flying trip to the Department of Justice from his Standard Oil hearing in New York was primarily to discuss with Bonaparte the various points that were the subject of the Attorney General's talk with Severance.

Senator Heyburn, of Idaho, who has just returned to Washington, seems to have a leaning toward Governor Hughes for the presidency. The Senator says: "He is a man who does things." He comes from a State with a large representation in the convention and electoral college; he has made an excellent showing as a lawyer and investigator, and has been an efficient executive. Oh, no, I most assuredly do not think there is a demand, in the west for the renomination of the President. The people will take the President at his word. Three years ago he announced that he would not again become a candidate. Since then he has said nothing to the contrary."

The only official action the President has taken since he entered the Canebrakes of Louisiana, was to telegraph today to the War Department prohibiting the destruction of historic trees in the Botanical Gardens, here. He orders the War Department to see that no steps are taken to clear the ground for the construction of the pedestal to the proposed Grant Memorial in the gardens, until his return.

Fruit packers, who have hitherto escaped the scrutiny of Dr. Wiley and his pure food investigators, will be the subject of the next report from the bureau of chemistry. Dr. Bigelow, of the division of foods, has just completed extensive researches in the methods of drying and preserving fruits, particularly in California, and the results, it is said, will be surprising not only to the packers, but to the consumer who looks upon dried fruits as nature's own food. In the methods now in vogue, for drying peaches and similar products, a certain amount of sulphur is used to retain the fresh appearances of the fruits. Dr Bigelow believes that sulphur is not necessary.

The Commissioner of Internal Revenue is determined to drive out of prohibition states patent medicines which contain a large percentage of alcohol. The commissioner recently attended camp meeting in a prohibition State and saw a number of drunken hangers-on. An investigation allowed the sale of a well-known stomach bitters.

PASS FINAL PEACE ACT.

At the tenth plenary sitting of the peace conference yesterday at The Hague, M. Nelidoff presiding, the final act of the conference was adopted and was recorded as follows in the minutes:

"The second international peace conference, first proposed by the President of the United States, having been, through the invitation of his majesty, the Emperor of all the Russias, convoked by her majesty, the Queen of the Netherlands, met June 15, 1907, at The Hague, in the Hall of Knights, with the mission to further develop the humanitarian principles which were the basis of the work of the first conference."

After giving a list of the powers participating in the conference, with the names of the delegates, the act continues:

"In a series of sittings from June 15 to October 18, in which the delegates were constantly animated by the desire to meet the intentions of the initiator of the conference, as well as those of the governments participating, the following conventions were agreed upon for the signatures of the plenipotentiaries:

"1. The peaceful regulation of international conflicts.

"2. Providing for an international prize court.

"3. Regulating the rights and duties of neutrals on land.

"4. Regulating the rights and duties of neutrals at sea.

"5 Covering the laying of submarine mines.

"6. The bombardment of towns from the sea.

"7. The matter of collection of contractual debts.

"8 The transformation of merchantmen into warships.

"9. The treatment of captured crews.

"10. The inviolability of fishing boats.

"11. The inviolability of the postal service.

"12. The application of the Geneva convention and the Red Cross to sea warfare; and

"13. The laws and customs regulating land warfare.

"The right to sign these conventions will be open until June 30, 1908."

The closing session of the conference will be held today.

Negro Escapes Lynching.

Cincinnati, O., Oct. 18.—William Grey, a negro, narrowly escaped lynching early today at the hands of a mob near here. Grey is accused of the murder of H. B. Howard. A mob of masked men broke into the jail, tied a rope around Grey's neck and dragged him toward the Hartwell Ball Park. A number of prominent citizens stopped the mob and finally persuaded its members to return Grey to the jail.

STENOGRAPHER WINS.

Miss Nellie Hinds, of Philadelphia, in Richmond yesterday got a verdict for $2,478 05 against William Walden, of Fredericksburg. Miss Hinds is a stenographer and was employed in one of the Philadelphia hotels. It was there that she met Walden, who made a contract with her to pay her $100 a month and leave her $5,000 at his death on condition that she go to Fredericksburg and enter his employ.

She accepted the position. After being there for a short while she was dismissed by Walden. She instituted suit in the federal court sometime ago and at the first hearing she was given $900. This verdict was set aside by the court and a second trial ordered. This trial ended yesterday.

Walden is a wealthy man and has large interests in the city of Fredericksburg. The case has attracted a good deal of attention.

Emperor Francis Joseph Worse.

Vienna, Oct. 18.—The Emperor Francis Joseph is worse today. He has lost strength and the court physicians admit that they consider his condition serious, though they say they believe there is no immediate danger. Anxiety concerning the Emperor's condition is increasing this afternoon. His Majesty shows growing signs of exhaution and complains of new pains in the breast. His temperature is slightly higher and the doctors are trying unsuccessfully to induce their patient to cease work. They think his relapse may be due to the weather, which is cold and wet.

EPISCOPAL CONVENTION.

Election of bishops in the House of Bishops and the final passage of the resolution accepting suffragan bishops in the House of Deputies were chief features of yesterday's proceedings in the General Episcopal Convention now in session in Richmond. Many questions of minor importance, which necessarily demanded attention at this convention, were decided in the morning sessions, and in the afternoon questions of a more serious character were taken up.

Nominations for vacancies in the western missionary districts were considered by the House of Bishops. At the close of the morning session Secretary Hart reported that Frederick Foule Reese, of Nashville, Tenn., formerly of St. Mark's Church, Baltimore, had been appointed missionary bishop of Wyoming, and that Rev. Henry Dean Robinson, of Racine, Wis., had been chosen bishop of Nevada.

The afternoon session of the bishops was devoted entirely to the nomination of two bishops, Rev. Robert Lewis Paddock, rector of the Church of the Holy Apostles, of New York, being elected bishop of Eastern Oregon, and Bishop Rowe, of Alaska, being transferred to the missionary districts of Western Colorado. The election of Bishop Rowe will be withheld from the House of Deputies, however, until it can be learned whether or not he will accept the transfer.

The house of deputies agreed to concur in a message from the House of Bishops recommending that the words "According to the Protestant Episcopal Church in the United States" be stricken from the title page of the Book of Common Prayer. Dr. Grammer, of Pennsylvania, fought the resolution, claiming that such action by the House of Deputies would be nothing more nor less than changing the name of the church, a thing which the convention had already agreed not to do.

The chief fight in behalf of the acceptance of the resolution was on the fact that the word "Protestant," when translated into the Latin, Spanish and Portuguese, meant "infidelity," and that those foreigners would reject, on the face of it, any church with such a word on the title page of its book of prayer.

The resolution to strike out the objectionable clause in the title page was presented and carried by an almost unanimous vote, even though it involves a change in constitution of the church, and cannot be finally accepted without the concurrence of the next general convention.

Dr. Huntington, of New York, presented the joint report of the committees on suffragan bishops and the committee on final action of the house of deputies. The work among the colored people for the present was referred to the joint committee Wednesday with instructions to report Thursday and recommended the appointment of suffragan bishops to preside over the colored people, the same not to have succession and to be entitled to seat without vote in the House of Bishops.

Dr. Huntington reported that the committee had agreed upon the recommendation as handed down to them and would recommend the passage of a resolution in accordance therewith. The resolution was adopted and the action of the house will be reported to the bishops for their concurrence today.

Dr. Huntington, after the resolution had been adopted, explained that the resolution did not state whether the suffragan should be a white or colored man, even thought leading men in the colored church had told him that their people preferred the guidance of white clergymen and bishops.

The suffragan bishops bill was passed by the House of Bishops last night. This is the same bill that was passed by the House of Deputies of the general convention Wednesday, so that this is a settlement of the negro question as far as the Episcopal Church is concerned at present.

The suffragan bishops will be elected in only those dioceses which demand it, and will have a seat in the House of Bishops without a vote. They may be either white or negro bishops, and may work among either the negro or the white people. It is understood, however, that many of the dioceses will ask for negro suffragan bishops to work among the negroes, those bishops being under the immediate control of the white bishops of the diocese in which they work.

Just before adjournment of the deputies two messages from the House of Bishops were read informing the deputies of the appointment of bishops. Deputy Lewis, of Pennsylvania, asked that the nominations be referred to the committee on consecration of bishops, and that the House of Deputies sit in private session Friday afternoon to finally dispose of the matter.

The House of Bishops refused to concur in the action of the House of Deputies in their rejection of a resolution presented by the bishops asking the establishment of provinces. The matter was referred to a committee of conference.

Rev. Dr. Wilmer, of Atlanta, Ga., following an eloquent address in the House of Deputies of last night, was severely arraigned by a deputy from Los Angeles, who openly criticised his expressions in advocating a continued use of the revised edition of the Scripture instead of accepting the St. James Bible as the authorized edition of the church, and accused him of levity in regard to his references to the Word of God. In his appeal for the acceptance of the revised edition, Dr. Wilmer said that the trouble with the Episcopal Church was that it has already remained too long in the background and that if it had asserted itself long ago it could have accomplished more in 100 years than it has done in the 300 years of its existence. The deputy in his objections appealed to President McKim, who agreed with his views upon the levity of Dr. Wilmer's address, and requested that speakers following guard their words. The proposal to accept the revised edition, as supported by the Atlanta deputy, was defeated. The King James version remains the authoized edition of the church.

Contrary to precedent, and for the first time in many years, no pastoral letter will be read at the closing service of the convention. This decision was reached last night, when a copy of the pastoral letter, as prepared by Bishop Garrett, was read before the house. Objections were raised, in that the report of the committee on the state of the church had not been considered in the latter, and that the house desired to make corrections before the letter was delivered to the church. The letter will be formally presented to the church at a time and a place yet to be decided.

Today's Telegraphic News.

Wm G. Rockefeller on the Stand.

New York, Oct. 18 —Wm. G. Rockefeller, nephew of John D. and the last of the Rockefeller clan, at 26 Broadway, took the witness stand today in the government suit to dissolve the Standard Oil of New Jersey. He is treasurer of the Standard of New York and assistant treasurer of the Standard of New Jersey. Kellogg at once asked if he knew anything about loans to James McDonald, amounting to an average of about $2,500,000 extending over the years from 1900 to 1906 by the Standard of New York.

"I only know the Anglo-America Company of London ordered us to pay the money," said Rockefeller, "we simply acted as bankers."

Kellogg asked if he knew anything about the $20,000,000 appearing on the books of the Southern Pipe Line Company as having been paid to H. S. Trainor, the Standard purchasing agent. He said he never had heard of the sum though all Trainor's business is conducted by the Standard Oil of New York.

Moritz Rosenthal, of the Standard counsel, cross-examined Rockefeller. To his questions the witness replied that the Standard Oil of New York brings into this country from $80,000,000 to $100,000,000 annually. In answer to another question by Kellogg, Rockfeller replied that the average amount of foreign exchange sold by the Standard of New York annually is about $45,000,000. He was then excused from the stand.

The Hague Conference

The Hague, Oct. 18.—After exhausting themselves in efforts to reconcile divergent views on nearly 100 questions, the delegates to the Peace Conference will begin to leave for home Sunday with only three important matters definitely decided.

The subjects on which agreement have been reached are:

An amendment to the Drago Doctrine by which the powers, though pledged to submit international financial disputes to arbitration, may employ force to compel acceptance of arbitration awards.

Prohibition of the opening of hostilities until war has been formally declared.

Options of the principle of establishing a permanent arbitration court, but leaving the choice of judges to future discussion by the powers.

The delegates signed the final act today, and tomorrow the various conventions will be formally concluded. Than the conference will adjourn.

President Nelidoff, the head of the Russian delegation and presiding officer of the conference, closed today's proceedings with a tribute to President Roosevelt to whose "noble initative" he attributes "the movement for international peace."

Steamship Wrecked.

Edinburg, Oc. 18.—But three out of a crew of 21 have been saved from the Danish steamship Alfred Erlandsen, which went ashore near St. Abbs' Head late yesterday and was battered to pieces by the surf during the night. Eighteen were swept by the mountanous waves from the deck and were drowned. Of the saved one was a women. It was impossible to reach the wreck from shore, and the survivors, lashed to spars, were washed up by the sea and dragged to safety by the crowd on the beach. The Erlandsen's boats were dashed to bits when the crew tried to launch them. Only the splintered hulk of the vessel remains off shore, the masts and most of the deck and cabin having swept away.

Collision of Trolley Cars.

Chattanooga, Tenn., Oct., 18.—The Sherman Heights electric cars, running at a high rate of speed, collided this morning near the crossing of the Cincinnati, New Orleans and Texas Pacific Railroad. Ed. Parker and Will Pennington, motormen, were instantly killed and Will Smith, a passenger died on his way to a hospital. Three negro passengers were taken to hospitals, some fatally hurt, while over a score were more or less injured. Both cars were badly wrecked, the vestibules being torn to pieces. One car left a switch on the other's time, and the fog was so heavy that the motormen were unable to avoid the collision.

Will Probably Visit the United States.

Ottawa, Oct. 18.—King Edward and Queen Alexandra of England may pay a visit to the United States in the not distant future. It is regarded as a certainty here that unless something unforeseen intervenes their majesties will visit Canada in connection with the centenary celebration of the landing of the Champlain. In such event there is little doubt King Edward will take advantage of his presence on this side of the Atlantic to visit the United States which he admires so much. The intimation that royalty will attend the celebration comes from the highest of authority.

Report Denied.

Manila, Oct. 13.—Almost simultaneously with the circulation of the rumor of a report that an attempt was made to throw a bomb at Secretary of War Taft at the reception given in his honor at the Jesuit College came an official denial of the report. The police say a careful investigation has been made of the story, but not a scrap of evidence can be found to substantiate it. Mr. Taft, at an entertainment at Fort William McKinley this morning, refused to discuss the bomb story. He reviewed the Manila garrison in the afternoon and will attend a reception at the American Club tonight.

Collision on Southern Railway.

Greensboro, N. C., Oct 18.—Due, it is said, to the carelessness of a flagman in leaving open a switch on the main line, a passenger train collided with a freight on the Southern Railway, and as a result five persons are reported dead today and nineteen injured.

Outside of the fireman of the freight, who was killed, all of the casualties occurred among those on the passenger. None of the dead has been identified.

The freight had been sidetracked to allow the passenger to pass, but the flagman's carelessness in leaving the switch open caused the accident.

Storms in Europe.

Paris, Oct. 18.—Terrific storms, torrential downpours of rain, high wind and floods are prevailing to an extraordinary extent throughout France, Spain, Italy and Great Britain. The storms have been so general that an accurate estimate of the loss of life is impossible. In the aggregate it has been heavy. The property losses are enormous.

Balloon Voyagers.

St. Louis, Mo., Oct. 18.—Two balloons left here late yesterday, one containing J. C. McCoy and Captain Chandler, the other Allan R. Hawley and Augustus Post. The McCoy balloon is after the medal held by Lieut. Lahm and expects to cover over 402 miles. It has a capacity of 77,500 cubic feet, the same as the balloons in the international race will have. Each balloon was outfitted for a night in the air and was provisioned. Hawley is not after a record.

London, Ind., Oct. 18.—Augustus Post and Hawley of St. Louis, who left that city yesterday afternoon in a balloon, landed at 6:30 today on a farm four miles west of here. They made the trip safely.

A distance of 225 miles was covered in 12 hours. The air was clear for the most part. The greatest height reached was 1,500 feet. The lowest point of navigation was 450 feet in the air. The altitude, it is said, was about 800 feet.

Wheeling, W. Va., Oct. 18—Baltimore and Ohio railroad operators at Charleston, W. Va., report to the office here that at 12 o'clock the McCoy baloon was 25 miles west of that point traveling south-east very rapidly.

Market Easier.

New York, Oct. 18 —Wall street breathed easier today believing the worse over in the copper crisis which had kept financial circles in a furore for two days. Announcement that the Clearing House Committee which examined the Mercantile National Bank, from which F. Augustus Heinze yesterday retired as President, was solvent and the positive declaratipn that the firm of Otto Heinze and Company, to which F. Augustus Heinze has determined to give his entire attention, will be able to weather the storm, had a quieting effect.

A meeting of the creditors of Otto H. Heinze & Co. has been called for Monday when an effort will be made to adjust claims. Attorneys for the firm made the statement that all just claims will be paid in full. The Gross and Kleeburg claim, however, it is understood is not regarded by the attorneys as a just claim. It will be impossible for Otto Heinze & Co. to make an immediate settlement and they will ask an extension. Examiners estimate the total liabilities will be about $2,000,000. Action taken by the clearing house committee today practically guarantees the Mercantile National Bank from being involved in the Heinze failure. Comptroller Wm. D. Ridgeley, arrived in this city this afternoon and went into consultation with the directors. It was forecasted in Wall street that he will accept the presidency of the Mercantile Bank.

New York Democrats.

New York, Oct. 18 —With the appearance in this city next Monday night of William Jennings Bryan, who speaks in Cooper Union under the auspices of the democratic progressive league, of which Augustus Thomas, the playwright is president, the fight for the New York State delegates to the next democratic national convention will be on. Mr. Bryan has notified Thomas that the local fight here will not be discussed by him as he considers that a matter for the campaign managers to dispose of without alien assistance.

The Hamburg Bank Failure.

Hamburg, Oct. 18.—Representatives of all banks affected by the Halle, Boehel & Co., failure yesterday for between $6,000,000, and $7,000,000 met today and adopted plans which they believe they will prevent further trouble. Leutgens and Einstmann, an exporting and imporing house, suspended today as a result of yesterday's failure.

The President Kills A Bear.

O'Hara's Switch, near Stamboul, La., Oct. 18.—President Roosevelt at last has shot a bear. He brought down the quarry at the end of a four hour chase last evening and there is great rejoicing in the camp. Details of the shot will not be obtainable until a messenger comes from camp.

Negroes Sentenced.

New Brunswick, N. J., Oct. 18.—William Noxon and James Walls, negroes, were sentenced to 12 years imprisonment today for splitting Israel Mark's tongue while attempting to cut it out that he might not cry for help and interrupt them in robbing his house.

Drop in Wheat.

New York, Oct. 18.—During the noon hour the market for wheat ran into a stop-less orders that practically demoralized the list, forcing prices down nearly eight cents per bushel from the recent high point. There appeared to be little or no buying in any market. Corn broke one cent and oats three-fourths of a cent.

New York Stock Market.

New York, Oct. 18.—The market opened with a general firmer tone, and prices generally about ½ per cent. higher in all of the representative issues. After the first hour the market reacted and later developed weakness. In the inactive issues Lackawanna opened off 10 points. The list at 11:30 o'clock showed general fractional recoveries from the lowest, Railrord and other bonds were weak.

After two hours trading the market broke badly. At one-o'clock the prices recovered about ½ to ¾ per cent. from the lowest but the market was unsettled.

Out of Sight.

"Out of sight, out of mind," in an old saying which applies with special force to a sore, burn or wound that's been treated with Bucklen's Arnica Salve. It's out of sight, out of mind and out of existence. Piles, too, and chilblain disappear under its healing influence. Guaranteed by druggists. 25c.

THE DOCTOR ACQUITTED.

After a sensational trial, lasting three days, during which nearly 100 witnesses testified, Dr. William D. Chase, a prominent young physician, was acquitted yesterday by a jury at Elizabethtown, Tenn., of the charge of betrayal, under promise of marriage.

The central figure in the sensational trial was Miss Flora Kuhn, daughter of Mrs. Nannie Kuhn, of Milligan, and a member of one of the best families in that section. On the stand she told the story of her meeting Dr. Chase and their romantic courtship and engagement.

Last December, after paying attentions to the girl, who, it is alleged, was then only sixteen years old, Dr. Chase temporarily gave up his practice, and position as surgeon of Milligan College and went to New York to take a post-graduate course in medicine. Shortly after he left, the girl's mother instituted criminal action against the young physician, who had returned in the meantime, and he was arrested.

IN MEMORIAM.

In sad, but loving remembrance of our father, GEORGE W. WINDSOR, who departed this life October 18, 1906 - one year ago today.

Alone in the silent graveyard
'Neath the sod and the dew,
Never one moment forgotten—
In sorrow I think of you.

Oftimes to the grave yard I wander,
Flowers to strew with tender care
On the grave of one I shall always remember
Who is resting there.

Years and years may pass
No more we'll see thy face,
But loving hearts and willing hands
Will keep green thy resting place.

HANGINGS

Two hangings took place in Virginia today. The condemned were George Peters, of Carroll county, and William Harris, of Chesterfield county. Peters shot and killed a preacher (Rev. Joseph Easter), who had severely criticised "moonshiners" for their operations in the country, and it is said that Peters was designated by the gang as the avenger of the violators of the law. The murder was designated by the judge who tried the case as one of the most deliberate and cold-blooded in the history of the county.

Governor Swanson declined to commute the sentence to life imprisonment of William Harris, colored. Harris attempted to assault a young lady in Chesterfield county and was forced to desist when the girl's brother appeared with a rifle. The man escaped and was captured in Alexandria. He entered a plea of guilty and the jury fixed his punishment. The governor refused to consider a plea for commutation.

OLD HOME WEEK.

The parade yesterday of the departments of the city of Baltimore was a remarkable exposition of the mammoth undertakings which greater Baltimore is pushing to completion. To the majority of the thousand who lined the route of procession it was a revelation, and the continuous cheering showed how impressed the spectators were. It is estimated that 350,000 spectators viewed the parade. Governor Warfield reviewed the parade and the electrical pageant at night, and expressed himself as being delighted with both.

The electrical pageant at night was one of the prettiest spectacles ever seen in this city. The floats, mounted on car trucks and propelled by trolley, were beautiful conceptions, and the men and women who helped make the pageant a success deserved the applause they received. At least 400,000 persons, it is estimated, saw the spectacle.

The carnival scenes on the downtown streets were repeated at night.

T. W. House, private banker of Houston, Texas, yesterday filed a general assignment under the State law. W. B Chew, W. D. Cleveland and J. S. Rice were named as assignees. They gave bonds in the sum of $1000,000 before Judge Norman G. Kittrell. It is stated that the resources are sufficient to pay creditors 100 cents on the dollar.

MIDGETS' APPEAL.

Mr. Samuel G. Brent Commonwealth's Attorney, of this city, has received the following communication from Attotney General Anderson in reference to the appeal to the Court of Appeals of George Midgets, colored, convicted of the murder of Charles T. Smith in this city on October 20, 1906:

OFFICE OF ATTORNEY GENERAL
OF VIRGINIA, RICHMOND.

Samuel G. Brent, esq, Attorney for the Commonwealth, Alexandria, Va.

My dear sir: You have my warm thanks for your valued letter of the 12th instant, received on my return here from Washington.

Probably because my mind was too much engrossed by a number of other cases and matters of very great public importance and interest, I did not apprehend the points made by you in your letter of the 20th of May in reference to the above case.

On again reading that letter and yours of the 12th instant, I am convinced your view as to the invalidity of the bills of exception because they were not signed by the judge during the vacation of his court immediately succeeding the term at which the opinion to which exception is taken was announced is correct, and that the writ of error would not have been awarded had this fact appeared in the record. I will, proceeding in the manner you suggest, endeavor to get it into the record and will thereupon move that the case be dismissed.

The other ground upon which you rely seems to be supported by Spangler vs. Doty, 15 Gratt, 385, and Hogshead vs Butler, 16 Gratt, 103, but the circumstances that the bills of exception were not signed during the vacation succeeding the term at which the case was tried is amply sufficient if we can get the facts into the record here, to support a motion to dismiss, under Hoover and others vs. Saunders, 104 Virginia 783. The reasoning of the court in that case is not, perhaps, conclusive, but its decision, which is the unanimous decision of the court upon the identical question, would seem to be entirely conclusive.

If the April term of the Corporation Court of Alexandria was still in session on the 25th of April it might be well to show that fact also from the records of the court, for by the express terms of the statute the bills of exception could be signed in vacation only and if they were signed during a subsequent term the case would be stronger for dismissal than Hoover vs. Saunders.

I will be very glad to have you take part in the argument of the case.

WILLIAM A. ANDERSON.

TO LEASE OR SELL.

An adjourned meeting of the joint committees on finance, public property and general laws was held last night to take action regarding the lease or sale of certain property owned by the city near the old canal locks for use as a site for manufacturing purposes. The committee considered two proposals to lease, with the option of purchasing. The property is wanted by the Alexandria Distilling Company, of which Mr. Milton S. Fairfax is president, and by Mr. Arthur Bryant. It was decided to recommend to council that the property be advertised for sale or lease to the highest bidder, with the proviso that it must be used for manufacturing purposes and also with such provisions as to prevent it from being bought and held for speculative purposes.

KNIGHTS OF COLUMBUS.

About forty members of Fitzgerald Council, No. 459, Knights of Columbus, journeyed to Washington last night and exemplified the first degree of the order upon a large class of candidates of Spaulding Council. The work of the local council was highly praised by the Washingtonians. Following the initiation ceremonies a luncheon was served. Afterwards an interesting literary and musical programme was rendered. The following officers of the local team conferred the degree: M. J. McFarland, grand knight; M. T. Dwyer, deputy grand knight; H. L. Wheatley, chancellor; T. C. Hoy, warden.

ALARM OF FIRE.

The alarm of fire shortly after nine o'clock this morning was caused by a blaze in a frame house on the west side of Royal street, between Wilkes and Gibbon. The department responded and the fire was extinguished before any material damage resulted. An elderly lady barely escaped being run over on King street by one of the steam engines after the alarm had been sounded. She had started to cross the street and became confused when she saw the engine but a few yards near her. A young man, realizing her peril, ran to her rescue, and barely had time to pull her aside before the engine passed.

DEDICATION POSTPONED.

The dedication of Pender Church, which was to have taken place Sunday, has been postponed until next spring in view of the inability of the committee to furnish the house, because of disappointment in getting material, but the house was opened for Divine worship, and will be used regularly. Dr. Register and Rev. J. W. Smith preached eloquent sermons to a vast congregation, and $150 was raised for the house.—[Fairfax Herald.

THE CASE OF YOUNG HADDOX

Linden Haddox, who was yesterday sentenced to serve in a reform school for shooting young Justus Schneider a week or so ago, having been provided with a home in Rappahannock county, will be sent to the latter place, the city authorities agreeing—satisfactory promises and arrangements having been made for the change in the sentence.

SUIT DISMISSED.

Chief Justice Clabaugh in Washington yesterday dismissed the suit filed by Samuel Wasserman against the Norfolk and Washington Steamboat Company, alleging that the company had refused to accept him as a passenger. The suit was dismissed because of Wasserman's failure to prosecute the action further.

Peyton Gray, colored, charged with disorderly conduct and fighting, was fined $5.

Connie Dixon and John Bryant, both colored, charged with fighting, were dismissed.

Two white women, occupants of a house in the northern section of this city, and the owner of the same, charged with maintaining unsanitary conditions on the premises, were ordered to abate the same.

Elizabeth Travers, colored, charged with assaulting a white boy named Norman Wells, was fined $10.

A GOOD ENTERTAINMENT.

At the Opera House last night another excellent programme of pictures was shown. Special music was furnished for the occasion by Mr. Pierson, a pianist of Washington. Professor Boyd sang some beautiful and catchy songs which were composed by himself. He was assisted in the chorus by Misses Marie Stone, Clara McIntosh, Willie Cunningham, Margaret Cunningham and Nell Van Matre, and Mr. Ross Bright. The house, as usual, was crowded to its capacity. The show affords an innocent amusement for children as well as grown people.

THE PALLBEARERS' UNIONS.

The seventeen members of Pallbearers' Union, No. 1, of Alexandria, enjoyed a social gathering with their friends in the Odd Fellows' Hall, on south Columbus street, last night. The organization, it is said, has officiated in thirty or forty funerals. The members are working men, but always get off to go to funerals. There never is a cent of money paid for carrying the corpse. The suggestion which led to the formation of the association was when a colored woman died on Oronoco street by the name of Lizzie White, and there was no one to bear the body. The circumstances becoming known on February 3, 1907, the union was formed to help all bereaved families by being body bearers. In case of death where the services of the union are desired, it is explained, the president of the association, Scott Butler, residing at 518 north Royal street, is communicated with, and he in turn lays the matter before the general manager, who speaks to the individual members of the order, and the thing is done. The general manager picks out six men to serve. If there are three funerals in a day he calls out the first six, then the second six. That's twelve. Then, as there are only seventeen members, to make up the third six, he call out one from the first six.

The following are the officers of the union: Scott Butler, president; William Payne, financial secretary; Charles Carter, treasurer; Ellis Day, vice president; George Carrington, assistant secretary; Albert Green, general manager, and Fred Jones, sergeant-at-arms. These, with Robert Lee, James Banks, Lewis Jackson, Joseph Howell, Benjamin Henderson, William Jackson, William Washington, John Toliver, Abram Gibson, and Walter Gaskins, constitute the working force of the union. The members of the organization deny the statement made by some colored men at the foot of King street one day this week that they are members of the organization, and refused to work on that account. The bona fide members claim to be industrious men.

[Editorial in Hartford, Conn., Daily Courant]

Collector P. Davis Oakley has voluntarily withdrawn the personal bond of $25,000, given for the proper performance of his duties, and has substituted the bond of a fidelity company for the same amount. This commendable action deserves a passing comment. Mr. Oakley found no difficulty whatever in getting bondsmen, but, whoever his bondsmen might be, there could be no denying that they had put the collector under a direct personal obligation to them. It is far more independent and self respecting, to go down into your own pocket for the premium and pay a corporation, chartered for the purpose, for giving its bond for you. This cost him some money, but with that he buys complete personal independence and sets an example that should be widely followed. It is the way to do business; and it is no reflection upon willing friends to go instead to a company. On the contrary, it is doing them a favor.

SUICIDE WITH DYNAMITE.

Jacob Detlinger, aged fifty-nine, of York, Pa., committeed suicide in an unusual manner last night. Placing a stick of dynamite in his mouth and holding it in his right hand, Detlinger exploded the dynamite, blowing his head off and shattering the hand that held the explosive. Last Tuesday Detlinger, who was a well-digger, lost a sum of money said to have been $40. He brooded over this, and finally began drinking heavily as a result. Last night he entered the kitchen of his boarding-house with the dynamite and matches in his hand. "Well, here goes to end it all," he said. He handled dynamite in his business, and as he had often made such threats before, no attention was paid to him. He went into the yard, and in a few moments there was a loud explosion.

WOMAN SHOT AT FAIR.

Mrs. William Stover, wife of a prominent farmer living along the Middleburg pike, not far from Hagerstown, Md., was shot in the back and probably fatally injured on the Hagerstown fair grounds yesterday afternoon.

In company with her husband and two children, she was walking along one of the principal avenues not far from the main entrance, when a ball from a rifle discharged in a side show struck her. She was hurried to the hospital, where her condition is critical.

"Nebraska Bill," whose real name is said to be William McDonald; his wife, and six male members of the company operating the show, were at once arrested and lodged in jail without bail.

Thus far they have declined to state who fired the shot. There is strong feeling against the members of the aggregation.

The ills peculiar to women, take different forms.

Some ladies suffer, every month, from dark rings round their eyes, blotches on their skin and tired feeling. Others suffer agonies of pain, that words can hardly express.

Whatever the symptoms, remember there is one medicine that will go beyond mere symptoms, and act on the cause of their troubles, the weakened womanly organs.
